A blue industrial press machine is shown in a close-up view. The machine has a vertical frame and a base. A metal die is mounted on a vertical rod, and a workpiece is being pressed. A spring is visible at the top of the machine. The workpiece is a cylindrical metal part with a threaded section. The machine is mounted on a wooden surface.

A close-up photograph showing a person's hands, with red-painted fingernails, operating a blue manual press. The person is holding a small, cylindrical metal component in a die. A blue handle is being pushed down, applying pressure to the component. A thin metal rod is visible on the left side of the die. The background is dark and out of focus.
